

Bonitron Warranty Policy

WARRANTIES

Bonitron expressly warrants the equipment it manufactures as set forth herein. Bonitron makes no other warranties, either express, implied, or statutory (including without limitation warranties as to merchantability or fitness for a particular purpose). Bonitron warrants the equipment, parts and components manufactured and supplied to be free from defects in material and workmanship for a period of 18 months from date of shipment to the Buyer. Repair or replacement may be made at Bonitron's option. All equipment supplied or manufactured by others which may be part of a total system supplied by Bonitron will be warranted by Bonitron to the extent provided by that manufacturer. Repairs are warranted for a period of 90 days.

GENERAL WARRANTIES

The foregoing warranties are further subject to the following general conditions:

- a) These warranties shall not apply where the equipment has been subjected to shipping damage, accident, alteration, misuse, abuse, or failure on the part of the Buyer to ensure proper storage, installation operation and maintenance of the equipment. Use of equipment in improper or non-recommended applications or parts or components used in assemblies not meeting Bonitron's specifications or quality standards, which cause damage to the equipment will not be covered by these warranties.
- b) Bonitron will pay for regular ground shipping costs to and from Bonitron when products are repaired under warranty coverage. Buyer will pay for excess shipping charges when shipments are expedited. Buyer will also pay for crating if modules are not returned in original crate or a crate suitable to protect from shipping damage.
- c) If the Buyer requests the performance of warranty work provided for under the foregoing warranties during other than normal Bonitron work periods, the Buyer shall be required to pay for all premium time.
- d) If the Buyer requests the performance of warranty work provided for under the foregoing warranties away from Bonitron premises, the Buyer shall be required to pay for the travel time, living and travel expenses of any Bonitron personnel required to perform such warranty work. Bonitron will be responsible for actual repair time for warranty work.
- e) If the Buyer requests an onsite review by a Bonitron engineer to establish cause of failures or applicability of warranty coverage, the Buyer shall be required to pay for the engineering time, travel time, living and travel expenses of any Bonitron personnel required.
